

SINGLE head

HAPPY

HCD-1501 series embroidery machine

Introducing the next-generation HAPPY.

HCD: Industrial sewing power, Tabletop Package.

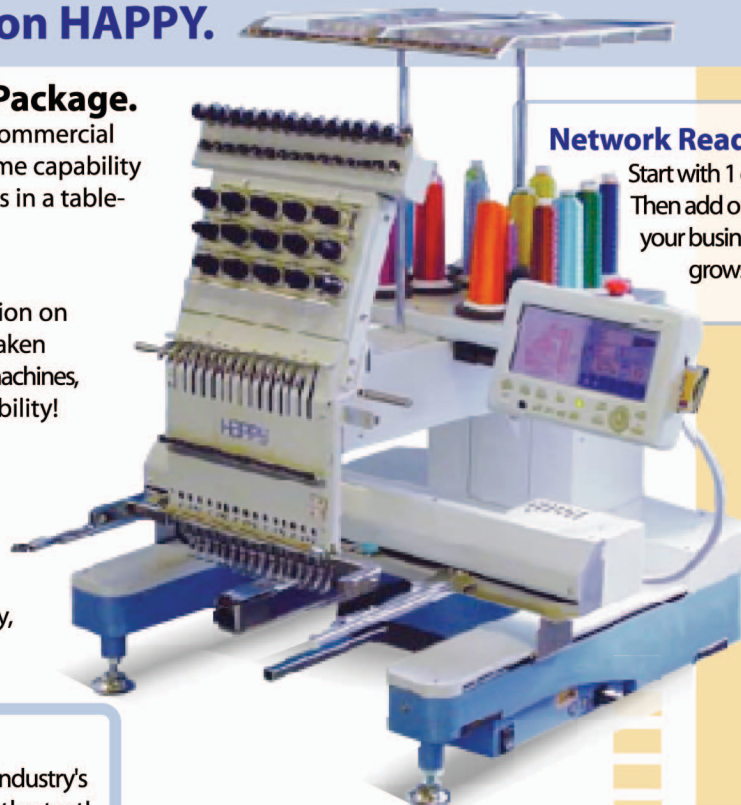

HAPPY blurs the line even further between compact and commercial with its HCD-series single-head machine. Built with the same capability as many of its full-sized cousins, HCD still accomplishes this in a tabletop package at an attractive price!

About HAPPY Machines

For decades, HAPPY Industrial Corporation built its reputation on quality and durability. Just ask any "HAPPY" owner. They've taken the next step into the 21st century in this latest generation of machines, introducing new levels of connectivity, user-friendliness and sew-ability! Read on to find out more.

Major Features

15-needle 1-head, speed 1200spm, max embroidery area 520x400mm, wide cap field 80x360mm, connect via USB, serial, LAN, Flashcard, optional floppy. Color LCD display, rotary thread break sensors, 1 million stitch memory, onboard design setup, editing & management functions. Runs on standard 110V house current.

Network Ready

Start with 1 or 2. Then add on as your business grows!

Our Best-Kept Secret

HAPPY machines are backed by legendary service and one of the industry's best warranties. But machines this good rarely put that to the test!

New Color Control Panel

The color LCD display & controller makes design setup, sewing & management a breeze! With built-in help plus a host of helpful functions, you and your HAPPY can become productive in no time!

Feature Highlight: HCD's on a Computer Network

Network setup is simple with HAPPY's HCD, which opens up all kinds of possibilities for your shop. With several networked HCD's, you can assign tasks in any combination to take on a big order or several small orders at the same time! The networking software helps track production and individual machine performance.

Easy Hardware Setup

You'll need very little to get connected - cables, your computer's LAN jack, and a basic network hub if working with multiple machines.

Uses digicam-style Flash memory cards!

Built-in online help right in the control panel!

Connect via serial, USB, or network!
